GROWING A HIGH QUALITY EARNINGS BASE

Growth in Regulated Earnings driven by \$9.5 billion in Regulated Utility investment

FUTURE CAPITAL INVESTMENT

~ \$5.3 billion in Regulated Utility and contracted capital growth projects expected in 2016 - 2018

Adjusted earnings are defined as earnings attributable to equity owners after adjusting for the timing of revenues and expenses associated with rate-regulated activities and dividends on equity preferred shares of Canadian Utilities Limited. Adjusted earnings also exclude one-time gains and losses, significant impairments and items that are not in the normal course of business or a result of day-to-day operations. Certain statements in this document contain forward-looking information. Please refer to our forward-looking information disclaimer in Canadian Utilities' management's discussion and analysis for more information.

Q2 2016 RESULTS

CANADIAN UTILITIES REVENUES

CANADIAN UTILITIES ADJUSTED EARNINGS

ELECTRICITY

- Higher adjusted earnings were mainly due to continued capital investment and growth in rate base within Regulated Electricity and business-wide cost reduction initiatives.

ADJUSTED EARNINGS

PIPELINES & LIQUIDS

- Higher adjusted earnings were primarily attributable to continued capital investment growth in rate base within Regulated Pipelines & Liquids and business-wide cost reduction initiatives. In the second quarter of 2015, ATCO Gas Australia's earnings were reduced by the one-time earnings impact resulting from a retroactive regulatory decision that was received in that quarter.

ADJUSTED EARNINGS

RECENT DEVELOPMENTS

- In May 2016, Canadian Utilities rapidly responded to wildfires in the Fort McMurray region of northern Alberta by mobilizing teams from across Alberta to provide accommodation for first responders and evacuees, and rebuild utility infrastructure that was damaged by the wildfires. The fires impacted the assets of the Company's Regulated Electricity and Regulated Pipelines & Liquids businesses located in the region. Insurance coverage applies to the Company's property with the exception of small diameter natural gas pipelines and meters and electric property outside of transmission substations including wires, poles, towers, transformers and meters. The estimated net book value of the damaged assets is less than \$10 million.
- In July 2015, the Western Australia Economic Regulation Authority (ERA) released its Final Decision for ATCO Gas Australia's next Access Arrangement period (AA4) from July 2014 to December 2019. The decision resulted in a reduced utility ROE from 10.41 per cent to 7.28 per cent. ATCO Gas Australia lodged an Appeal Application with the Australian Competition Tribunal (ACT) on October 1, 2015 seeking leave to appeal a number of key items, including, but not limited to: ROE and the recovery of operating expenses, depreciation and corporate income tax expenses. The ACT decision was received in July 2016 resulting in an increase of approximately \$4 million to second quarter 2016 adjusted earnings mainly due to an improvement in the recoverability of certain expenses.
