Canadian Utilities today announced third quarter 2019 adjusted earnings of $106 million, or $0.39 per share, compared to $132 million, or $0.49 per share, in the third quarter of 2018.

Lower earnings in the third quarter of 2019 were mainly due to favorable earnings realized in the third quarter of 2018 associated with the Balancing Pool’s termination of the Battle River unit 5 PPA and associated availability incentive and performance payments. The Pipelines & Liquids business adjusted earnings in the third quarter of 2019 were $2 million higher than the same period in 2018, mainly due to ongoing growth in the regulated rate base and lower income taxes.

In the third quarter of 2019, Canadian Utilities invested $297 million in capital projects, of which $268 million, or 90 per cent, was invested in regulated utilities. The remaining $29 million invested includes planned capital maintenance in the electricity generation fleet.

In the period 2019 to 2021, Canadian Utilities plans to invest $3.5 billion in regulated utilities in Canada and Australia, which will continue to strengthen our high-quality earnings base.

**RECENT DEVELOPMENTS**

**Canadian Electricity Generation Business Sale**

- In the third quarter of 2019, Canadian Utilities finalized the sale of its entire 2,100-MW Canadian fossil fuel-based electricity generation portfolio in a series of transactions. Canadian Utilities received $821 million of aggregate proceeds on the sale and recognized a gain on sale of $139 million (after-tax), which is excluded from adjusted earnings.

** Alberta Powerline (APL)**

- On September 23, 2019, Canadian Utilities confirmed that seven Indigenous communities entered into definitive agreements to purchase a combined 40 per cent ownership in APL. The remaining 60 per cent of APL will be owned by an investment consortium. Canadian Utilities will remain as the operator of APL over its 35-year contract with the Alberta Electric System Operator. The sale is expected to close in the fourth quarter of 2019, subject to receipt of regulatory and bondholder approvals, and satisfaction of other customary closing conditions.
Corporate

- On July 17, 2019, Dominion Bond Rating Service (DBRS) affirmed its 'A (high)' long-term corporate credit rating and stable outlook on Canadian Utilities' subsidiary CU Inc. On August 9, 2019, DBRS affirmed its 'A' long-term corporate credit rating and stable outlook on Canadian Utilities Limited.

- On October 3, 2019, S&P Global Ratings affirmed its 'A-' long-term issuer credit rating and stable outlook on Canadian Utilities Limited and its subsidiary CU Inc.

- On October 10, 2019, Canadian Utilities declared a fourth quarter dividend for 2019 of 42.27 cents per Class A non-voting and Class B common share.

Earnings attributable to equity owners of the Company | 284 | 202 | 800 | 378

Weighted average shares outstanding (millions of shares) | 272.6 | 271.7 | 272.6 | 271.2

(1) Adjusted earnings are defined as earnings attributable to equity owners of the Company after adjusting for the timing of revenues and expenses associated with rate-regulated activities, dividends on equity preferred shares of the Company, and unrealized gains or losses on mark-to-market forward and swap commodity contracts. Adjusted earnings also exclude one-time gains and losses, significant impairments, and items that are not in the normal course of business or a result of day-to-day operations. Adjusted earnings present earnings on the same basis as was used prior to adopting International Financial Reporting Standards (IFRS) - that basis being the U.S. accounting principles for rate-regulated entities - and they are a key measure used to assess segment performance, to reflect the economics of rate regulation and to facilitate comparability of Canadian Utilities' earnings with other Canadian rate-regulated companies.

(2) Refer to Note 4 of the Unaudited Interim Consolidated Financial Statements for the nine months ended September 30, 2019 for detailed descriptions of this adjustment and others.

(3) In the second quarter of 2019, the Government of Alberta enacted a phased decrease in the provincial corporate income tax rate from 12 per cent to 8 per cent. This decrease is being phased in increments from July 1, 2019 to January 1, 2022. As a result of this change, the Alberta Utilities decreased deferred income taxes and increased earnings in the second quarter of 2019 by $203 million.

(4) Each quarter, the Company adjusts the deferred tax asset which was recognized as a result of the Tula Pipeline Project impairment. The adjustment is due to a difference between the tax base currency, which is the Mexican peso, and the U.S. dollar functional currency.
